OBJECTIVE

Aspiring AI & ML professional pursuing B.Tech in Computer Science and Engineering, driven by a passion for transforming ideas into intelligent solutions. Eager to contribute fresh perspectives, innovative thinking, and a strong work ethic to a forward-thinking MNC, while embracing every opportunity to learn and grow in the evolving tech landscape.

EXPERIENCE

Junior Developer Intern (Selected Candidate)
Race Advanced Computing Education — Noida

December 2025 – Present

PROJECTS

- | | |
|---|-----------------------|
| AI-Powered Customer Interaction Agent for E-Commerce | Novemeber 2025 |
| • Developed an intelligent AI agent designed for e-commerce businesses to communicate with customers, understand their queries, analyze buying behavior, and gather feedback to recommend improvements | |
| Credit Scoring & Risk Assessment | Aprail 2025 |
| • Developed an ML model to evaluate creditworthiness using supervised learning algorithms. Achieved high accuracy by optimizing preprocessing and model selection. | |
| Froud Detection Model | June 2024 |
| • Built a machine learning model to detect fraudulent transactions using Python and ML algorithms, improving accuracy in identifying anomalies | |
| Responsive Web Development Project | Feb 2025 |
| • Developed a fully responsive and modern website with clean UI/UX, optimized navigation, and mobile-first design. The project focused on improving user experience and ensuring smooth performance across all devices. | |

SKILLS

- Programming language :- C++, Python, Java,
- Web Development :- Html, Css, Javascript, React
- AI/ML, DL(ANN, CNN, RNN), NLP, Generative AI, Agentic AI, LLMs
- NumPy, Pandas, Scikit-Learn, TensorFlow, PyTorch, Matplotlib, NLTK
- Jupyter Notebook, Git & GitHub, VS Code, Postman, OpenAI/LLM APIs, Google Colab
- DIGITAL MARKETING

EDUCATION

Bachelor of Design in Process Engineering

2023

2027

- Lamrin Tech Skills University
- Btech in ComputerScience
- 8/10

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Bhojpuri.
- **Certifications:** Generative Ai (License), AI&ML, Python, ML, Kyp, Java, Git&GitHub,
- **Awards/Activities:** Secured 1st Runner-Up in Web Weavers competition at university level (Lamrin Tech Skills University, Punjab) for outstanding web design, coding expertise, and problem-solving abilities .
